

# Camp Barney Medintz

Est. 1963

Your camper's health and safety is paramount to us during their session at Camp Barney this summer. Safe and efficient medication administration is a large piece of what we are responsible for. After significant research, this year we have decided to again partner with a nationally recognized pharmacy, **PersonalRX (formerly called CampRX)**, to fill your child(ren)'s prescription and OTC medications. **PersonalRX** will deliver medications in individualized tamper-resistant adherence packaging that includes day and time of administration.

We understand that the most challenging part for families is interrupting your regular refill schedule with your insurance company. **PersonalRX will hold your insurance claim until your regular fill date** to eliminate any need for vacation prescription or overrides. Further, **PersonalRX's** reputation for outstanding customer service, **advanced technology for communication**, as well as **competitive fees** led us to decide that they are exactly the right choice for our campers and families.

Because we are so confident regarding the success of the **PersonalRX** system of packaging medications, we are requiring all medications, prescription and/or OTC, be ordered through **PersonalRX**. We are certain that **PersonalRX** will be a great partner for our Camp Barney families. A representative at **PersonalRX** will be happy to answer all questions regarding your child's specific needs. In addition, we are always here to answer any questions or address concerns via email at [Marcushealthcenter@campbarney.org](mailto:Marcushealthcenter@campbarney.org).

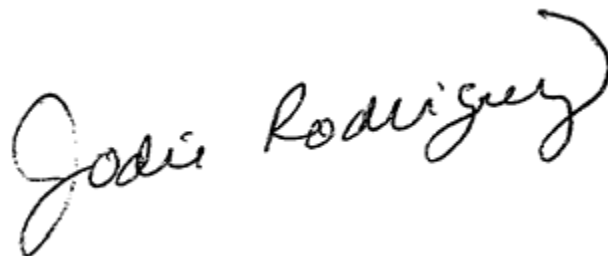

We look forward to taking care of your child(ren) for another safe, healthy and fun summer.
