

Dear Camp Barney Family,

Camp Barney Medintz and CampRx are working together to improve medication management with regard to safety, efficiency and overall adherence to best practices while your child is at camp. Our pharmacy will fill orders for prescription and over the counter (OTC) orders – including vitamins and dietary supplements – so that your child’s medication can be safely dispensed on a daily or as needed basis, in full compliance with State and Federal laws. CampRx will deliver medications in individualized tamper-resistant adherence packaging that includes day and time of administration.

This method of dispensing medication helps to minimize potential medication errors and ensures that campers receive the correct medication and dosage at the correct time of day. Medications will be shipped directly to Camp Barney ahead of the date they are needed. As we say at CampRx – *“the surest way to deliver medications on time is to deliver ahead of time!”*

Prescription medication will be billed directly to your insurance company. You will be responsible for a registration fee of \$30.00, which includes the cost of packaging, shipping and handling your child’s medications, regardless of how many prescriptions are being filled. The cost of any medication not covered by your insurance company, as well as any co-payments and/or deductibles, will be billed to your credit card account on file, as will any OTC items requested by you. If you are only requesting OTC medications the registration fee is only \$18.00. Your insurance company will be billed on your regular medication refill schedule, so a vacation or override prescription will not be necessary. Emergency orders are always accepted – and additional express overnight shipping expenses will be charged if required for timely fulfillment. All unused medications will be sent home at the end of camp session.

Our on-line registration process will take you through the required steps. Please register as soon as possible, so that we can avoid late charges associated with expedited service. After you submit your registration, you will receive an email that asks for confirmation and provides assistance for completing and submitting the required documents. After you are registered, you can log in to your Account Dashboard at any time and review your child’s medication, sessions, transactions and insurance information; and make changes as needed.

Welcome to CampRx! Here, you will experience a superior, customer-oriented pharmacy unlike any other. If you have any questions, please call us at (877) 302-3881 or email info@CampRx.com. For more information about CampRx and to register, visit www.CampRx.com.

Best Regards,

James Hennig R.ph, Pharmacy Director
