

# Camp Barney Medintz

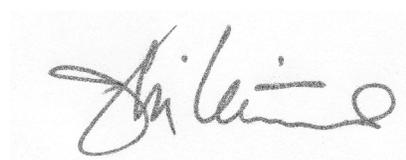

Est. 1963

Your camper's health and safety is paramount to us during their session at Camp Barney this summer. Safe and efficient medication administration is a large piece of what we are responsible for. After significant research, this year we have decided to partner with a nationally recognized pharmacy, **LTC Scripts**, to fill your child(ren)'s prescription and OTC medications. **LTC Scripts** will deliver medications in individualized tamper-resistant adherence packaging that includes day and time of administration.

We understand that the most challenging part for families is interrupting your regular refill schedule with your insurance company. **LTC Scripts will hold your insurance claim until your regular fill date** to eliminate any need for vacation prescription or overrides. Further, **LTC Scripts's** reputation for outstanding customer service, **advanced technology for communication**, as well as **competitive fees** led us to decide that they are exactly the right choice for our campers and families.

Because we are so confident regarding the success of the **LTC Scripts** system of packaging medications, we are requiring all medications, prescription and/or OTC, be ordered through **LTC Scripts**. We are certain that **LTC Scripts** will be a great partner for our Camp Barney families. A representative at **LTC Scripts** will be happy to answer all questions regarding your child's specific needs. In addition, we are always here to answer any questions or address concerns via email at [Marcushealthcenter@campbarney.org](mailto:Marcushealthcenter@campbarney.org).

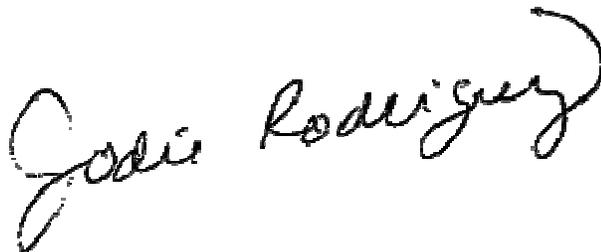

We look forward to taking care of your child(ren) for another safe, healthy and fun summer.
