Parsha

Parsha: This week's parsha is **Pinchas**

In this week's parasha we are introduced to the five daughters of a man who was named Zelophehad (Ze-loff-chad), who passed away while the children of Israel were wandering in the desert. Had he lived, he would have received a portion of land when the Israelites entered the Promised Land. According to the laws of the time, only males could inherit. This meant that Zelophehad's daughters would not receive their father's portion of land. They would have nothing.

The women felt that this was unfair, and they were brave enough to stand up not only in front of Moses, and all the leaders of the tribes, but in front of the entire assembly of the children of Israel and state their case. Imagine that. It would be like standing up here in front of the entire camp and saying, "I believe that such and such is wrong." There were more than 600,000 people watching and listening!

It did not stop those sisters. These young women believed passionately that the law was unfair. Why should they be cheated out of their father's rightful share of land just because they were female? The people listened, and Moses took their complaint to God. God agreed that the law was unfair, and that it was only right that the sisters receive their father's share of land. Then and there, the laws of inheritance were changed, not just for those sisters, but for all of the Israelites, from then on.

We often are faced with situations where we feel that we ourselves or someone else is being treated unfairly. How many of us would be brave enough to step forward and tell someone to stop, that what they are doing is wrong?

The next time you see someone being bullied, or made fun of, or cheated in a game, or anything else that you believe is wrong, remember the daughters of Zelophehad. Don't sit back and let things happen. Stand up and do what is right and fair. ¹

Nature Exploration with Eleanor

Each summer at Camp Barney Medintz, we learn about, connect with, and appreciate the value of nature on our 540 acres and many trips across the Southeastern United States. Although we're not at camp this summer, there are still plenty of great opportunities for you to get outdoors with your family. In this video from Eleanor, a member of our Naturecrafts staff, you'll learn to identify a few plants, make a bird call, and appreciate fireflies! We'll air the video on our Facebook and [YouTube](#) at 2PM on Tuesday. Consider planning on taking a hike afterwards to see if you can put anything that you learned from the video to good use!

- What are ways that you and your family appreciate plants and animals in nature? Can you give an example?
- Do you believe that we have responsibility to take care of natural wonders in our world like plants and animals? Can you explain?
- What are ways that camp has taught you to take more responsibility to care of natural wonders in our world? Can you give an example?
